

ROPE/WIRE

Collect as much of the suspected rope as possible. Mark ends of material for comparison.

Place rope in paper bag of an appropriate size.

Seal bag with evidence tape.

Don'ts

- Don't cut or untie knots in the rope.
- Don't kink or twist wire.
- The item may be wrapped in paper to protect against damage.
- Knots in rope should not be loosened or disturbed.
- If cutting a noose for removal, reattach or bind the ends together with string to show the original.
